

UBC Teaching and Learning Enhancement Fund

Final Report – maximum 2 pages

Project Name: Formula UBC

Date: March 19th

Submitted by: Connor Burgess

Year of Funding: 2013

Summary of Work Accomplished

Promotional videos completed: were used during team recruitment and also shown to sponsors. Videos were posted on YouTube and on the team's website.

Books on suspension, aerodynamics, brake design, internal combustion engines, composites, etc. were purchased and are currently in use.

Sensors purchased and integrated into data acquisition system

Evaluation of Project's Success

Include evidence of rigorous evaluation.

Promotional videos received very positive feedback from numerous sponsors: Overall cash funding for the team has increased 34% over last year.

Books are all in use and being applied

Numerous new projects opened up as a result of sensor purchases to be used with the data acquisition system. Electrical team has more than doubled in size accordingly.
