### Summary of Work Accomplished

*Describe if and how the project has significantly contributed to the enhancement of teaching and learning, as well as if and how the project outcomes constitute sustainable benefits to students.*

The project's main objective was to create citation guides specific to the original script resources for the following languages: Chinese, Hindi, Japanese, Korean, Persian and Punjabi. The project also included the development of a website/page to display the resources for students and faculty wishing to use Asian-language resources. These objectives were completed and the resulting website is available here:

### Evaluation of Project Outcomes

*Describe the outcome-based criteria used to evaluate the project's success or performance.*

The evaluation of the project will be ongoing. We plan to reconnect with faculty in early 2016 to ensure that the guides are being used to their optimal potential, and will seek to include the link to the guides within course syllabi.
